ANNOUNCEMENT TO THE ASX – 25 March 2025

Inventis Limited [ASX: IVT]

Inventis Technology Government Grant Application Opportunity

On the 5th of March 2025 (Explanation of 1H25 Sales Results) and on 28th of February 2025 (Hazavoid Expansion Update), the Company advised of the intention to apply for the Industry Growth Program (IGP) for Hazavoid and Opentec.

We would like to address this by clarifying the procedure and outlining our current stance regarding the grant application process.

The Industry Growth program provides an Advisory Service for startups and small and medium enterprises (SMEs) undertaking innovative commercialisation and/or growth projects that are within the priority areas of the Australian Government's National Reconstruction Fund (NRF) and help build Australia's manufacturing capability for the future.

We have currently successfully progressed in the Advisory Service stage with two separate advisors assigned, and commercialisation reports will follow with certain information flow and advice from the two advisors.

Once the Company receives the commercialisation report/s, it is our intention is to apply to the Grant Application Opportunity portal for the following opportunities:

1. Up to \$3M grant for advanced technology development for Hazavoid IP aimed at the defence and growth into the USA.
2. Up to \$1.45M grant for Opentec to assist with the defence sector IP and growth.

We are awaiting this advice at present.

Issued by Order of the Board

Chantelle Knight
Company Secretary
